

FAIR IN OUR OWN WAY

365 DAYS A YEAR

Our vision is simple: we strive for each of our clients to have a unique experience tailored to their specific needs. Whether it's in machine configuration or service provision, we aim to be different. The International Fair of Technology and Technical Achievements is taking place this year in Belgrade from May 21st to May 24th, but we have opted for an individual approach, so our doors are wide open for you every day of the year, at our location, Vinogradska 22, 11271 Surcin (Belgrade). In our dedication to you, we've equipped our showroom with products and equipment from the following principals:

Krauss Maffei Technologies GmbH

- Krauss Maffei hydraulic KM 80-380 CX
- Krauss Maffei electric KM 80-380 PX
- Krauss Maffei linear robot LRX 50
- MC6 simulator

LWB Steinl GMBH & CO KG.

Koch Technik GmbH
